

Eliminate Odors ...at the Source!

Quick & Easy!

Air-Heat Duct System Odor Eliminator

Controls stale odors from mold, mildew, pets, food, smoke, and other organic sources.

Clean Air® Duct Freshener Advanced Odor Control stops unpleasant odors at their source for long lasting results. Applied as directed, Clean Air's exclusive **CX-22** dual action encapsulation & surface odor control technology surrounds and **neutralizes odor-causing molecules from mold, mildew, algae, food, pets, tobacco smoke and more!** It safely freshens, cleans and coats the ventilation system - including vents, ductwork, evaporator core and drain pan. The light **Clean & Fresh** fragrance dissipates in a short time along with the odors!

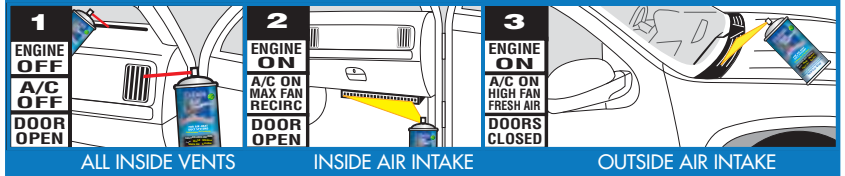

HVAC Duct Freshener

- Attacks and neutralizes the problem of poor automotive air quality at the major source... The air/heat duct system.
- Clean Air penetrates into hidden passages of air conditioning and heating duct systems where airborne contaminants thrive. It cleans, neutralizes and coats for long lasting control.
- Full treatment in 15 minutes; simply spray into air grills and air intakes. No special skills or tools required.
- One can treats one vehicle system.

Easy to Use 1, 2, 3
